COLORED INSTITUTE.

Good Attendance at the Session of the Association.

The colored teachers institute of McCracken county is attended by a large crowd at the high school building. The first topic today, "School Management," was discussed at length by Prof. E. W. Benton, who advised the teachers to enter their districts a few days before opening, in order to ascertain the standing of the pupils. He gave a program for the first day's work. Keep pupils busy. Be kind yet positive. Do not sulk. Have good order.

Superintendent J. W. Hughes made some interesting remarks. He was followed by R. C. McClure, T. D. Hibbs, B. W. Harvey.

Prof. G. O. McBrum made an interesting talk on the subject. He said the teacher should not be too hasty, and that parents often made children dread school by telling them of being whipped. Corporal punishment should be used as a last resort only, and in extreme cases.

The subject of grammar, oral lessons, the text book by Miss Eula Terrell, parsing, diagraming was discussed by the instructor who said that analysis should precede parsing and diagraming. It was further discussed by Prof. G. O. McBrum and various members of the institute.

Initiatives and participles was discussed by T. D. Hibbs with blackboard illustrations.

MUCH EXCITEMENT.

Reported Assault on a Young Lady Near Kirksey.

From near Kirksey, Callaway county, comes the vague news of an assault on a young lady named Manning a day or two ago.

According to the report in the Callaway Times of yesterday she had come to the garden after vegetables, when she was seized from behind by a masked man, whose color she could not discern in the dark, and assaulted. He gagged her so she could make no outcry, and made his escape, being frightened away before he had accomplished his purpose. There was great excitement at last accounts, and police with bloodhounds were on his trail, but with no success.

This morning a posse was in close pursuit, it was reported, and about 11 o'clock it was thought that they would be laid at the door of a neighbor suspected. Sensational developments are expected.

NEWS BUTCH SHOT.

Someone Fired Into an Illinois Central Accommodation

J. W. Bradley, a new agent on one of the Illinois Central accommodation trains between Central City and Louisville, was shot in the hand a night or two ago by someone on the train, who got through the hatch and shot him. Fortunately the bullet was not fatally injured. No clue was obtained to the identity of the man who did the shooting.

MAY HAVE BEEN.

Detroit Journal: "When I asked you whether I might hope to make you my wife," exclaimed Wilfred, striving to be calm, "he knocked me down and kicked me in the face." "My darling!" cried Constance, impulsively, and threw herself into his arms.

But presently the other second thought came to her.

"Does papa really object to you?" she now mused, "or is it only a ruse of his to get me interested in you?"

MAD DOG BITE.

Lemond Moore, a clerk at Kirksey's grocery, on Court by a cur dog this morning. He had Captain Joe Fowler's madstone applied at the boat store and the wound is not serious.

CHINESE EMPEROR.

SHANGHAI, Aug. 23.—The Shang hai Mercury publishes a communication from Peking to the effect that the Emperor has developed symptoms of insanity.

LABORER'S WORK

In Spite of His Efforts of Yesterday He Is After Dreyfus' Enemies Today

WITH A VERY GOOD EFFECT

Dreyfus Himself, Goaded By Lies Told, Is Disposed Today to Defy His Persecutors.

THE EVIDENCE TAKEN IN TRIAL

RENNES, France, August 23.—M. Labori arrived in the court room early this morning, looking well after yesterday's efforts. The prosecution at the opening began playing strong cards to counteract Labori's brilliant work of yesterday. The process of proving Dreyfus guilty on general principles was continued and witnesses testified of dislike and the suspicion of officers for prisoner.

Major Roy was the first witness. He said Dreyfus continually provoked suspicion.

Major Dreyfus told of the irregular hours at which the prisoner worked in the bureau. He once saw him trying into a chest of documents.

Captain Denehaute said Dreyfus asked where the confidential documents were kept.

Dreyfus, replying, said the testimony tortured him, for he knew in his own mind that he was innocent. He was told that he was a spy, and that he was a traitor.

A THIRD CANDIDATE.

TOLEDO, Ohio, Aug. 23.—Mayor "Golden Rule" Jones today announced himself as a non-partisan candidate for governor.

The republicans also have a nominee and the democrats will now name a candidate.

THE ALASKAN MAILS.

Dog trains, Indian packers and boats are to be discarded as mail carriers in the Klondike, and both the Canadian and United States governments are to give their faith to reindeer. The deer are to be brought from the east coast of Siberia across the Bering strait. They cost, on an average, \$16 each. A reindeer will travel 150 miles a day under favorable conditions, and a team will average twelve miles an hour, pulling a load of 300 pounds.

The expert reindeer herders and drivers brought from Lapland and Siberia by the government will teach the mail carriers how to handle their new mounts. The experience of W. J. Kjellman, superintendent of the postal station at Port Clarence, who, with two reindeer and a reindeer team, traveled 1,000 miles through at reckless country, has demonstrated the practicability of the new plan.

Cyclists in Sydney, Australia, have come to the conclusion that it is safer to ride by night than by day, as the cycle track in that city has been lighted so that no shadow whatever is cast. Fifty-five and 17 incandescent lights with reflectors have been arranged about the course at intervals of 30 feet.

FATALLY HURT

George Young Found In a Critical Condition.

Supposed to Have Been Kicked In the Face By a Horse While Feeding.

George Young, a farmer of the Maxon's Mills section, about 25 years old, was found in his stable early yesterday morning in a critical condition. He had been struck a violent blow in the face, and his jaw bone was broken, and his face terribly lacerated and contused. He was conscious only at times, and then could not talk, on account of the injury. Several of his teeth had to be pulled before the wounds could be properly dressed. It is understood that he wrote a few words on paper saying that he didn't know whether he was kicked by the horse or someone struck him.

Deputy Sheriff Ogilvie saw him today and it was thought probable that he would not recover when the officer was there.

THE CENSUS.

As Stated Yesterday, It Begins to Look Gloomy.

Mayor Lang is very jubilant over the fact that the census bids fair to fall below 20,000. The enumerators claim to be about through, and if their present figures are the ones they turn in, the number will approach 19,000, but not equal 20,000.

It is probable, however, that they may be asked to make another canvass. The gentlemen in favor of making Paducah a city of the second class are not willing to give up now for they know that there are 20,000 here some where.

JACK BOLAN.

He Has Fought Four Times Since He Left Paducah.

Jack Bolan, the well known prize fighter, passed through the city today en route from Illinois to Jackson, Tenn. where he will in a few days fight Jim Beaver, of that place.

Super Bolan left Paducah he has fought four bouts.

He whipped Jim Horne at Carbonate in six rounds.

At Du Quoin he fought 10 rounds with Ben Thomas, of Alabama, and this was declared a draw.

He whipped Kid Murphy at Memphis in four rounds, and also a man at Carbonate, whose name he could not remember, in 8 rounds.

SCARCITY OF COAL CARS.

All That Can Be Found are Being Used by the Railroads.

There is a scarcity of coal cars on the railroads again, and the amount of coal being hauled is said to be greater than known in some time. This is the coal man's busy time, and they are getting in supplies for the winter.

The Illinois Central keeps things bustling in order to furnish the requisite number of cars.

IMPORTANT MEETING.

All Interested in the Street Fair Should Not Fail to Attend.

Those interested in a street fair for Paducah this fall should not fail to be present at the meeting at the city hall tonight, which will be held for the purpose of taking definite steps towards getting up the fair.

The first meeting was held last Friday, and the meeting tonight may decide the project.

GOEBEL COMING.

He Will Be Here September 6 and at Grahamville the 7th.

The executive committee of the local Goebel club met yesterday afternoon and arranged for the appearance of Senator Goebel and Ex-United States Senator Blackburn here on the sixth of September. The following day both of these distinguished speakers will attend the barbecue at Grahamville.

WAS RUN OVER.

Tom Wilson, of Newbern, Tenn., was brought in last night and placed in the railroad hospital. He has some bad bruises near the hips, who he was struck and run over by a hand car on the Memphis division yesterday afternoon.

It was remarkable that he was not worse injured than he was, which was probably due to the fact that the car was a light one. The accident resulted from the car jumping the track.

PARADOXICAL.

Detroit Free Press "Doctor," said the patient who runs to useless philosophical contemplations, "argue, it appears to me, is one of nature's contradictions."

OVER THE POND.

Threatened War in South Africa Will Cause Americans No Great Trouble.

BOTH SIDES ARE FRIENDLY

Kaiser Wilhelm Talks Shortly to His Cabinet for Not Posing Him

A RIOT IN AMSTERDAM

WASHINGTON, August 23.—Rumors of war in the Transvaal are causing little uneasiness in the state department circles, so far as American interests are concerned. Both the Boers and British are friendly to the United States and Americans having property in the Transvaal will be in a more favored position than the citizens of any other country. If it should appear war is inevitable plans will be made by the state department to protect the property and persons will be promptly carried into effect. The navy department is prepared to send vessels to South Africa at the first sign of an outbreak.

BERLIN, August 23.—The Kaiser and the crown council held a longer conference today on the Prussian Diet situation. The result is unknown. The Kaiser gave the minister a dressing down for failing to inform him correctly of the situation.

AMSTERDAM, August 23.—The disturbances at Hilversum yesterday over the result of the suppression of the annual fair continued last night. The cavalry finally charged the crowd killing one and wounding two.

INTERMEDIATE, Natal, Aug. 23.—The premier announced that British subjects co-operating with the enemies of the queen will be promptly punished. The declaration is due to a rumor that many of the Boers are now naturalized Englishmen and are quietly assisting Kruger.

CAPE TOWN, S. A.

August 23.—Hundreds of recruits are joining the Mafeking horse regiment which is mobilizing rapidly. Three hundred are said to be engaged on the border.

PRETORIA, AUG. 23.

It is denied here that any definitively has been sent by the Transvaal government to the British proposals, but alternative proposals have been submitted.

WAIVED HIS RIGHTS.

Horace Powell Was Not Carried to Owensboro.

Horace Powell, of Marshall county, arrested yesterday on a charge of complicity in the Calvert City post office robbery, this morning signed a paper waiving all rights to a speedy trial before U. S. Commissioner Powell. He did this to keep from being taken to Owensboro. Owing to the absence of Commissioner Sawyer, who alone has authority to take a prisoner, he was committed to jail without one, and after a full trial. He would then have to be taken to Owensboro, and committed to jail which would cause considerable trouble in getting his bonds there for the trial. He will consequently remain in jail here.

THE OPENING GUN.

LONDON, Ky., Aug. 23.—The Republican campaign was opened here yesterday with a big picnic, at which a fine free dinner was served by the women of the town. The picnic was held in the afternoon by Judge Clifton J. Pratt and Capt. Powers, and in the afternoon by Attorney General Taylor and John Marshall. All the speeches were devoted mainly to state issues and attacks on the Goebel election law. There was much enthusiasm manifested in the large crowd present.

Since January 1, ninety colleges, academies and seminaries and eight art galleries in the United States have received gifts amounting to \$2,072,358, not counting contributions of less than \$5,000. The total of the six months is not less than \$30,000,000, a showing never before equaled in any other country or period.

The fiscal year 1898, which broke the record in the exports of American manufactures, has been far eclipsed in this respect by the fiscal year just closed, with a total of \$335,000,000 an increase over last year of \$44,000,000.

INDIAN SAGES.

In the course of a letter written from India, a missionary says: "Retiring with a stream of pilgrims across the fields, I stopped on the way to see two sadhus of whom we had heard. The bodies of both are smeared all over with dust. One of them had his head buried in a hole and his feet in a mystery—at least to me—for I carefully examined the ground near his body and could find no hidden tube of bamboo for the suction of air. There is a mystery, however, about his motive. A single glance at the outstretched palm will suffice. See, it is full of small copper coins! He puts himself to this agony to gain a little money."

GLASS-EATER

The "Hoodoo" Doctor Is Held to Answer.

A Clear Case Against Him—Other Cases Tried Before Judge Sanders.

Will Byrd, colored, of New Orleans, was arraigned in the police court this morning on a charge of obtaining money by false pretenses from Wash. Stinson and Jesse Richards, two other negroes. Judge Sanders was a witness in the case, and Hon. Josiah Harris was appointed special judge to try it. The evidence showed that Byrd told the negroes he would show them where there was a basket of money in the ground and then some more, and he agreed to show them the place if they would put up the necessary ten pieces of silver the size of a dollar which he said were necessary to work the charm. They then all repaired to the region beyond Oak Grove, and with a three legged table, a curious needle, and some red flannel and a bottle of "hoodoo" medicine, he proceeded, after he had deposited the \$9 he received from them in his sock. He pointed out the spot in the ground, and left, forgetting to take his "hoodoo," which the others were afraid to touch. He had previously eaten some old lamp chimneys, which seems to have given the negroes more confidence in his supernatural powers.

Byrd declined to testify, or even to make a statement or eat glass. He was held to answer at the next term of court and remanded to jail. He will be fed on scraps of glass while in jail, if he prefers them.

The case against Mrs. Robbins, of Tennessee street, charged with using obscene language to Mr. J. W. Orr, and his family, was left open.

The case against Bob Davies, for whipping his wife, was continued.

A case against Jim Hubbard, for fast driving, was continued.

add police court.

Beverly Tracy, colored, on an old charge of gambling, was fined \$20 and costs.

Lou Howell, a discolored white woman, who admitted to cursing her own daughter, aged nine, was charged with cursing and abusing Mary Reynolds. She was fined \$5 and costs.

George Clayton was charged with drunkenness and a fine of one dollar was suspended against him on condition that he leave town.

John L. Barton, who was fined yesterday, said he took a little too much additional to steady his nerves. He was fined \$1 and reprimanded for getting drunk so often, and advised to take better in the future to steady his nerve.

Allen Walters, "Dumale," was fined \$1 and costs for drunkenness.

THE ATTAR OF ROSES.

London Standard: The rose harvest in Bulgaria and the distillation of oil of roses are now completed. The quantity obtained this year is about 200,000 grammes less than last year's yield. The decrease being due to the drought. Estimating the value of a gramme of oil of roses at two and a half francs, this means a turnover of half a million francs. The price of attar of rose has risen rapidly this year, and in all the large towns of Europe the demand is increasing. Stocks, therefore, will soon be exhausted. In Bulgaria the entire quantity at present stored is estimated at only about 50,000 grammes.

ALUM IN BREAD.

Alum is used extensively by inferior bakers to give a peculiar feathery lightness to their loaves. Inferior flour can be used when alum is put in bread. A simple test of alum, says a correspondent, is to add a few scraps of the bread in an alcoholic solution of logwood. The bread will turn blue if there is alum in it. When small particles of the bread adhere to a hot knife-blade thrust into it the presence of alum is indicated, providing the bread is twenty-four hours old.

TWO CHANCES.

NETHERSOLE AND MODJESKA.

Not long ago, while Mme. Modjeska was in New York, she was dining with Miss Marbury at the Waldorf-Astoria, and at an opposite table sat Miss Olga Nethersole, says the Boston Herald. When the two ladies were about to leave the room the fair Olga hastened across the room to Miss Marbury and asked if she would introduce her to Modjeska. Certainly, and the actress was formally presented. Then, to the astonishment of all onlookers, Olga Nethersole, the Boston girl, and, seating the head of Mme. Modjeska's gown and rolling up her eyes in reverent awe, pressed it to her lips. How's that for the "theater"? Mme. Modjeska, to her credit be it spoken, looked absolutely dazed, but gently threw herself back and made her escape quickly turned and made her escape before any further demonstration could be made.

Mohammed and the Mountain.

"The prince of Wales told me he will never again visit the United States," sighed Mr. Tody. "Is that so?" queried the imperious. "Well, I don't see how he is going to keep out of it if we go on spreading—Life.

WEDNESDAY AUGUST 23, 1899.

The people of the state would like

to know if the Louisville Courier

Journal and Times are really for

the "old line" standard? To

blackbirds, as the Courier Journal

once dubbed the would-be senator,

against Senator Lindsay. They in

timid as much in what they say, but

there are some who still think the

papers are honest, or will be to them-

selves, and that they are not for black-

birds for anything, hence really doubt

the sincerity of the papers named.

Will they speak and settle the doubt

in the matter?

Workingmen who are interested in

seeing business activity among home

manufacturers will be gratified to

know that the importations of wool-

en manufactures in 1899, under the

Dingley law, were but \$13,831,967,

against \$49,162,992 in the last year

of the Wilson law; manufactures of

fibers, \$25,132,495, against \$32,

\$46,867 in the last year of the Wilson

law; manufactures of wood, \$14,

499,487, against \$20,543,810 in the

last year of the Wilson law; manufac-

tures of iron and steel, \$12,098,

239, against \$16,094,557 in the last

year of the Wilson law; manufac-

ture of glass, \$13,283,151 in the last year of the

fiscal year 1899, against 236,073,

\$83 in the fiscal year 1897, the

last year of the Wilson act.

The money octopus is still ram-

pant. Western sections are con-

fronted with another freight car

famine.

The Brooklyn Eagle, a sterling

Democrat, announces that Bryan has

been de-throned and that Bryanism

is folding up its tent.

The woods seem full of these "you

do the voting and we'll do the count-

ing" fellows, but the consensus of

opinion is that they are "reckoning

without their host." For the people of

Kentucky are not so much given to

the role of the cringing cur as to sub-

mit quietly or without protest of some

effective sort to any role of the kind

hinted at in such a threat.

Judge W. H. Holt, of Frankfort,

spoke Monday in favor of the Republi-

cans at Williamsburg to some 2,

500 people. Judge T. Z. Morrow pre-

sided at the meeting. There was

much enthusiasm. Yesterday Gen-

eral W. S. Taylor, the nominee for

governor, addressed a very large

gathering at London, regularly open-

ing the canvass for his party.

Two words likely to be adopted in

English through the course of current

events are "bordereau" and "dossier."

According to the French lexicographer

Littre, "bordereau" is an itemized or

marginal summary. The bordereau

forged by Esterhazy purported to be a

list of documents furnished by Dreyfus

to an attaché of the German embassy.

"Dossier" is defined by the same au-

thority as an envelope containing the

papers relating to a particular af-

fair or to an individual. The custom

of keeping past personal records, or

"dossiers," posted up officially is re-

duced to a method in France.

No political Moses ever lived in

Kentucky to lose cast as rapidly as

Blackburn has in the last few days.

When he was announced sick, a few

weeks ago his friends fondly hoped his

illness would be accepted by him as a

pretext to keep out of the compen-

ing muddle it was forever closed

advocacy would place him, but he re-

covered, and is now in it so deep that

he fairly reeks with the Goebel fit,

and his public standing has weakened

in proportion. Vale, Mr. Blackburn,

We could better have spared a better

man, but the decrees of fate are in-

exorable and poor mortal man must

submit.

The people of the United States

are sending \$250,000,000 a year out

of the country to buy tropical pro-

ducts, including fibers, fruits, coffee

and sugar. The articles for which

this money is expended can be

grown in Porto Rico, Hawaii and the

Philippines, to say nothing of Cuba.

When American capital and Ameri-

cans become interested in the indus-

tries of those islands this vast sum of

money can be expended among our

own people, instead of being, as at

present, paid to those of other coun-

tries.

Candidate Bryan would seem to

have his hands pretty full with his

own garden fences the removal of

the season. He also has a good deal

of saltrimming in hand in prepara-

tion for weathering a very threaten-

ing gale. He therefore will not

come to Kentucky to make matters

worse by fooling with the Goebel

gun.

The new party men in New York

have a platform which demands mu-

nicipal ownership of all public util-

ities, the employment of labor at min-

COURIER-JOURNAL ON GOEBEL.

The Courier Journal thus denounced

the Goebel force bill on the adjourn-

ment of the infamous legislature

that enacted it into statute, in an

editorial headed "Kentucky's Shame,"

published March 16, 1898, but little

more than one year ago:

"Political parties are useful and

necessary, but political parties must

mean more than practical raid upon

office. Political parties cannot sink

fairness and honesty and themselves

float. Political parties in a republic

cannot exist by the enslavement of

the people. When they attempt it

they will be swept from the earth as

timber before a conflagration. No

party that ever was or ever shall be

worthy a feather in the scale with the

rights of the people to cast their votes

and have them counted.

"We are woefully mistaken in the

people of Kentucky if any party can

live that identifies itself with Goeb-

elism. The legislature that has

just died in ignominy has done all it

could to send the Democratic party to

the same dishonored grave.

"If the Democratic party, or Republi-

can party, or the Populist party, or

shall make this Goebel conspiracy its

own, it brings upon itself its own de-

struction, or the people of Kentucky

are no longer deserving of the right

of self government, which they will

have surrendered, and that they will

have sunk to such depths of degrada-

tion the people of Kentucky and the

people of any other commonwealth

in this union have yet given any sign."

WHY WASN'T DREYFUS SHOT?

Cincinnati—Commercial-Tribune:

"In considering the guilt or inno-

cence of Dreyfus, there is one indi-

rect but of testimony that points

almost conclusively to his innocence.

At the time of his conviction it is

claimed that the evidence against

him, written and oral, was over-

whelming and conclusive, and that

he was a traitor to his country be-

yond the shadow of a doubt. But,

in the face of this, his judges sent

him to an island to be placed in soli-

tary confinement during the rest

of his natural life. This was a

cowardly evasion of their plain duty.

If he was the traitor they wished

he would believe, why did they

not take him, without the waste of

Paris and put a few balls into his

heart? That would have settled

the matter beyond question, and

then the evidence, if it was worth

anything, would have convinced the

world that a traitor had simply met

his just end.

"But these conspirators lacked

the nerve to go to the full extent

of infamy. They came short and

hoped that he would do what they

had not the courage to do, end a

life. That he did not has brought

all this shame to the army of France."

She was found where she had fallen prostrate on the stairs at Mount's saloon. Dr. Robertson was called and pumped her out. She is said to have quarreled with her lover.

WANTS TO SPEAK.

R. Henry Thorpe, the "boy orator of Indiana," who has been in Nebraska and other western states making speeches for the Republican party and delivering lectures, is in the city. He wishes to enter the political contest here or elsewhere and may favor our people with a speech. He prefers a debate rather than a one-sided contest. Mr. Thorpe comes highly recommended.

THE GRAVEL QUESTION.

Elsewhere today the Sun prints a card from Mr. W. F. Jager relative to his retirement from the city's service, as inspector of gravel. The card leaves much unfolded which the people should know. It is clear, though it is much which is rather significant, and it is calculated to set the people to thinking. The Sun is not sufficiently advised to say what the trouble is, but it feels that a further explanation is due the people and it hopes it will be made without delay. If the city is not getting the gravel for which it is paying, and the card of Mr. Jager implies so much, why is this the case? There must be neglect or misrepresentation somewhere, and an investigation is at hand in order as well as more care to the public. Certain it is the people are getting very inferior gravel for their money, no matter whose fault it is, and a screw seems to be loose somewhere.

CARD OF THANKS.

Death has again snatched our home and taken away our last little babe. It has not been quite a month since it has been passed away. We wish to thank our many friends for their assistance and sympathy during their sickness and death, and our wishes are that no such afflictions may soon fall on them. May God be with them all.

Respectfully,
MR. AND MRS. OSCAR WOOD.

WHAT'S NEXT AT THE ARCADE?

BUGGY DEMOLISHED.

Mr. M. J. Hoffman has a narrow escape from being killed.

Mr. M. J. Hoffman, a saw mill man who resides on Boyd street and travels about the country a great deal, was driving home last night on Tenth street near Trimble, when a street car, run by Motorman Chas. Orr, struck his buggy and demolished it. He had a narrow escape from being killed, but owing to the manner in which the buggy was struck he was thrown out and alighted in such a manner as to escape serious injury, although his thigh was painfully skinned.

He considered his escape very fortunate. The motorman did not see him in time to avert the accident. When they became aware of the danger it was too late to avoid the collision.

WHAT'S NEXT AT THE ARCADE?

AFTER A THIEF.

Today Mayfield men were here in search of a horse thief who is supposed to have been in Paducah recently. They crossed on the ferryboat en route to Brooklyn, and from there will go to Metropolis, and from there they will go to the place where the thief was last seen, to whom the negro had traded one of the stolen horses.

STREET CAR SURVEY.

Line Out to the Proposed Depot Surveyed and Ready.

Superintendent A. S. Thompson this morning confirmed the report that the street car company had surveyed the Union depot to be built near the line out to the site of the proposed junction of the I. C. and N. C. and St. L. The line will be built as soon as the work on the new depot begins, if the companies are really going to build it, which seems to be probable.

AT THE PARK.

One of the largest audiences of the season was at the park last night to witness the roaring farce comedy "An Artistic Liar." This bill is certainly a strong comedy, being one of the funniest plays that has been put on this season. This same play goes on again tonight and on Thursday night the New England comedy drama, "Hickory Farm," will be presented.

TO CONTINUE FAIR.

Generally fair tonight and Thursday night.
